

[From Summer 1993]

CNHA Annual Meeting

The annual general membership meeting of the CNHA was held on April 24, 1993, in the auditorium of the Marine Science Consortium.

Chincoteague Refuge Manager, John Schroer, reported on the 50th anniversary plans and distributed commemorative pins to those members present. Eastern Shore of VA Refuge Manager, Sherman Stairs, updated us on the progress in their new visitor center. Ann Bell, Chincoteague Outdoor Recreation Planner, gave a status report on the CNHA sponsored projects (see "Refuge Manager's Note").

Other items on the agenda included joining with the Committee to Preserve Assateague in producing a welcome map. Many thanks to Frank Moore and staff for completing the architectural plans for the Lighthouse Lens Shelter. We will now proceed by getting cost estimates. The By-Laws were revised to reflect my duties and the new sales outlet. The last item of business was the election of the new board members (see "Refuge Manager's Note" for their names). After the meeting, we set out on a boat trip led by MSC staff where we took a look at the sampling methods used by oceanographers.

I would also like to say while it has been my pleasure to produce this newsletter over the last year; as business manger, I can no longer "do it all." With an additional sales outlet under my charge, I have to give up some of my extra duties. Starting with the next issue, Frank and Rose Moore and Bill Engelhart will be in charge of the newsletter and membership.

*Sincerely,
Marcia E. Kessler
CNHA Business Manager*
