

[From Fall 2008]

## **Website Development Committee Summer 2008**

Following the May 2008 CNHA board meeting, the executive committee formed an ad-hoc Website Development Committee. The purpose of the committee is to develop an enhanced website that would reflect the current and future needs of the organization. The website would be developed and maintained with CNHA resources. The committee is comprised of three board members: Doug Gifford (Chair), Frank Moore, and Mike Messier. Myrna Cherrix (CNHA President) and Beth Hanback (CNHA Business Manager) are ex-officio members of the committee.

After researching the available website development and support products that are available, Network Solutions was selected. Their package allows ease of development and can be implemented in several phases. The committee plans to begin basic website development upon approval at the August CNHA board meeting. An operational website should be available by the end of 2008. The committee recommends adding the capability to sell CNHA merchandise by March 2009. An interface to the eagle-cam may also be available by late spring 2009.
