

[From Fall 1996]

Personnel Changes at Chincoteague NWR

Over the past few months there have been several personnel changes at the refuge.

Supervisory Outdoor Recreation Planner Pat Esmond resigned to take a teaching position at Unity College in Maine. In mid-August Biological Technician Drew Ellis departed for the Big Sky Country of Montana. Drew accepted a Refuge Operations Specialist position at Charles M. Russell NWR and will be stationed in Jordan, Montana. We wish Pat and Drew well in their new positions!

Refuge staff are currently reviewing applicants for the Outdoor Recreation Planner position. A selection will be made soon. In addition, the Supervisory Outdoor Recreation Planner position has been advertised. Hopefully there will be some excellent applicants from which to fill this key position.

*Bob Wilson,
Deputy Refuge Manager*
